PROFESSIONAL SUMMARY

Highly motivated and career-oriented Full Stack Web Developer with strong expertise in modern front-end development and web application design. Proficient in React.js, JavaScript, HTML5, CSS3, and API integration. Demonstrated ability to build scalable, responsive, and performance-optimized applications. Passionate about continuous learning, problem solving, and contributing effectively in environments.

PROFESSIONAL EXPERIENCE

Web Developer – Anandam Senior Living Website | SMS Limited

- Developed a responsive web application using React.js, HTML5, CSS3, and JavaScript.
- Built reusable UI components following modern UI/UX principles.
- Integrated REST APIs and supported backend development using Node.js.
- Managed database operations using Supabase, PostgreSQL, and SQL.
- Improved application performance, responsiveness, and cross-browser compatibility.
- Collaborated in Agile workflow, client discussions, and weekly review meetings.
- Used Git for version control and team collaboration.
- Technologies: React.js | HTML5 | CSS3 | JavaScript | Node.js | REST APIs | Supabase | PostgreSQL | SQL | Git | Responsive Web Design | UI/UX

PROJECT EXPERIENCE

1. Hospital Management Dashboard (CRUD Web Application)

- Developed a hospital management web application with sidebar navigation and dynamic data table.
- Implemented CRUD operations using modal forms for adding, editing, and deleting records.
- Integrated Supabase (PostgreSQL) for real-time database storage and synchronization with frontend UI.

2. Personal Portfolio Website

- Developed a responsive portfolio using HTML, CSS, JavaScript, and React.js
- Designed modern UI with smooth animations and optimized performance

3. E-commerce Web Application

- Built a MERN stack app (React.js, Node.js, Express.js, MongoDB).
- Implemented auth, cart system, product listing, and checkout flow.

4. Soil Health Monitoring System (Final Year Project)

- Developed an IoT-based system to monitor soil moisture, temperature, pH, and nutrient levels using sensors for real-time analysis and sustainable farming optimization.
